CATALOGUES & FLYERS

GENERAL CATALOGUE

AGRICULTURAL COMET NEWS

After choosing an area of interest, you can view a page with the same setting for all three divisions:

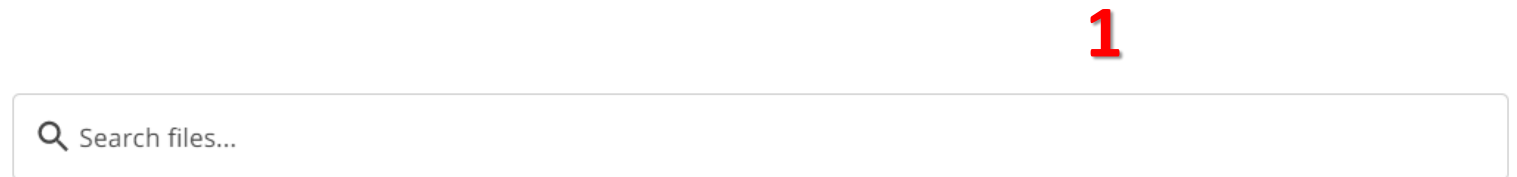

above the search bar for technical documentation (technical data sheets, spare parts, manuals, photos).

By scrolling down instead you can consult the sales documentation (Catalogues and Flyers)

TECHNICAL DOCUMENTATION'S SEARCH

To conduct research for technical documentation, two tools are made available to you:

1. search function on search bar
2. drop-down menu on the top left

TECHNICAL DOCUMENTATION'S SEARCH

If you decide to use the search function on the search bar, simply enter the name of the machine you are looking for in the search box and press enter. You will see all the documentation related to the machine present in the database

TECHNICAL DOCUMENTATION'S SEARCH

Sometimes the name of the product searched may be registered in the database with or without spaces, so the search may not give any results. In that case, we invite you to repeat the search by adding or removing the space within the query

TECHNICAL DOCUMENTATION'S SEARCH

Another research methodology is browsing through the folders in the drop-down menu on the top left.

By clicking on the "hamburger" menu

it will be possible to view all the document folders in the database grouped on several levels by type and product series. This type of research is recommended for those familiar with the products and already know what they want to look for.

TECHNICAL DOCUMENTATION'S SEARCH

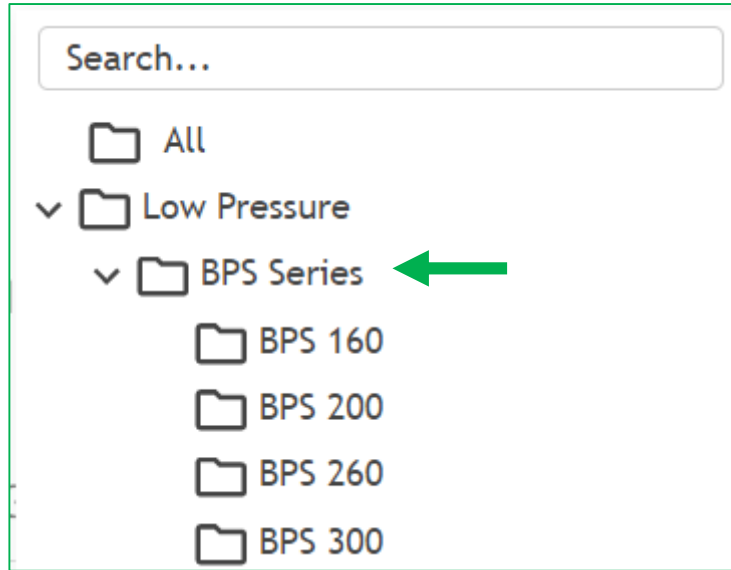

fig.1

For example, let's say I am looking for documentation for a BPS series agricultural pump. In this case I select the folder of interest from the drop-down menu (fig. 1), then, if necessary, I add a further filter by selecting one or more tags and finally I start the search by clicking on the CONTINUE button (fig. 2)

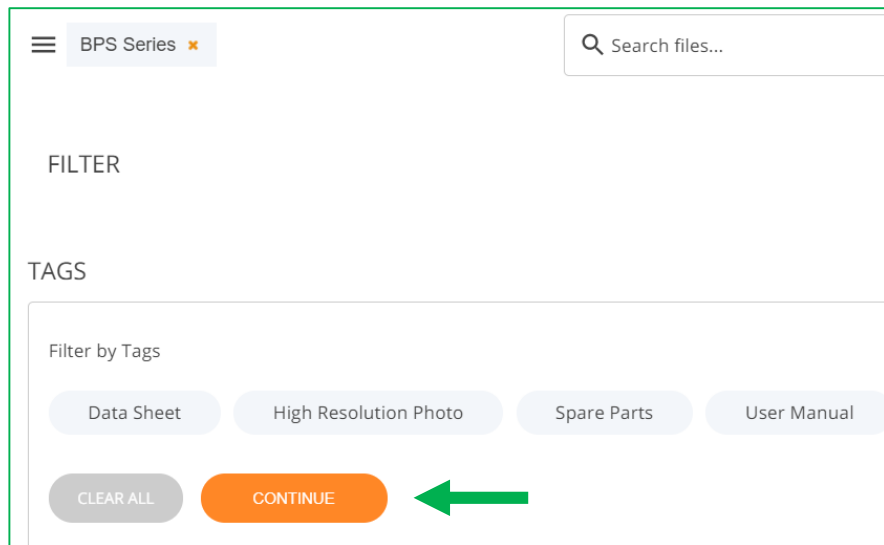

fig.2

fig.1

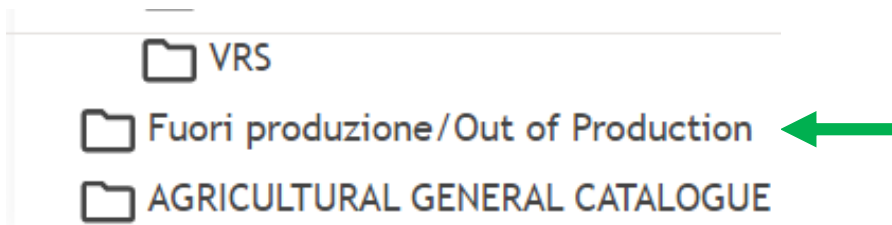

fig.2

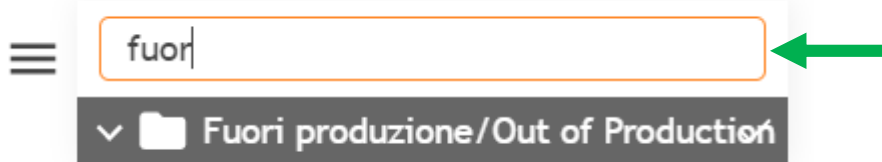

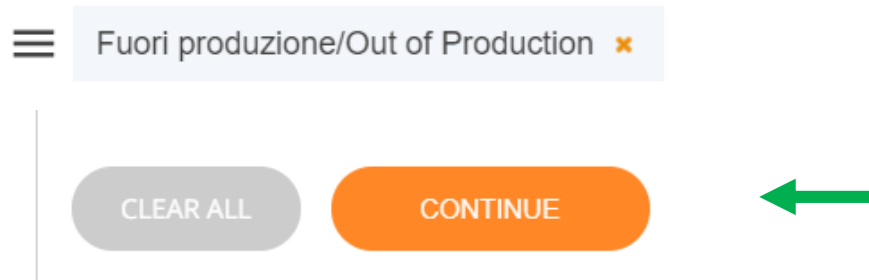

fig.3

In addition to the folders of the machines/pumps currently on the market, in the drop-down menu of all three divisions there are even the spare parts and/or manuals of the out of production products. If you want to view them just scroll the menu [fig. 1](#) (or start typing on the search bar [fig. 2](#)) and select the folder "OUT OF PRODUCTION / OUT OF PRODUCTION", finally starting the search by selecting [CONTINUE fig. 3](#)

TECHNICAL DOCUMENTATION'S SEARCH

DOWNLOAD

-  Scheda Dati
-  General Manual
-  Manuale Utente
-  Esplosi
-  Foto alta risoluzione

In addition to the search from the download area, we remind you that, for products currently in production, all the technical and sales documentation is available in the Data Sheets in the DOWNLOAD section. In some cases, are available even the presentation or troubleshooting videos.

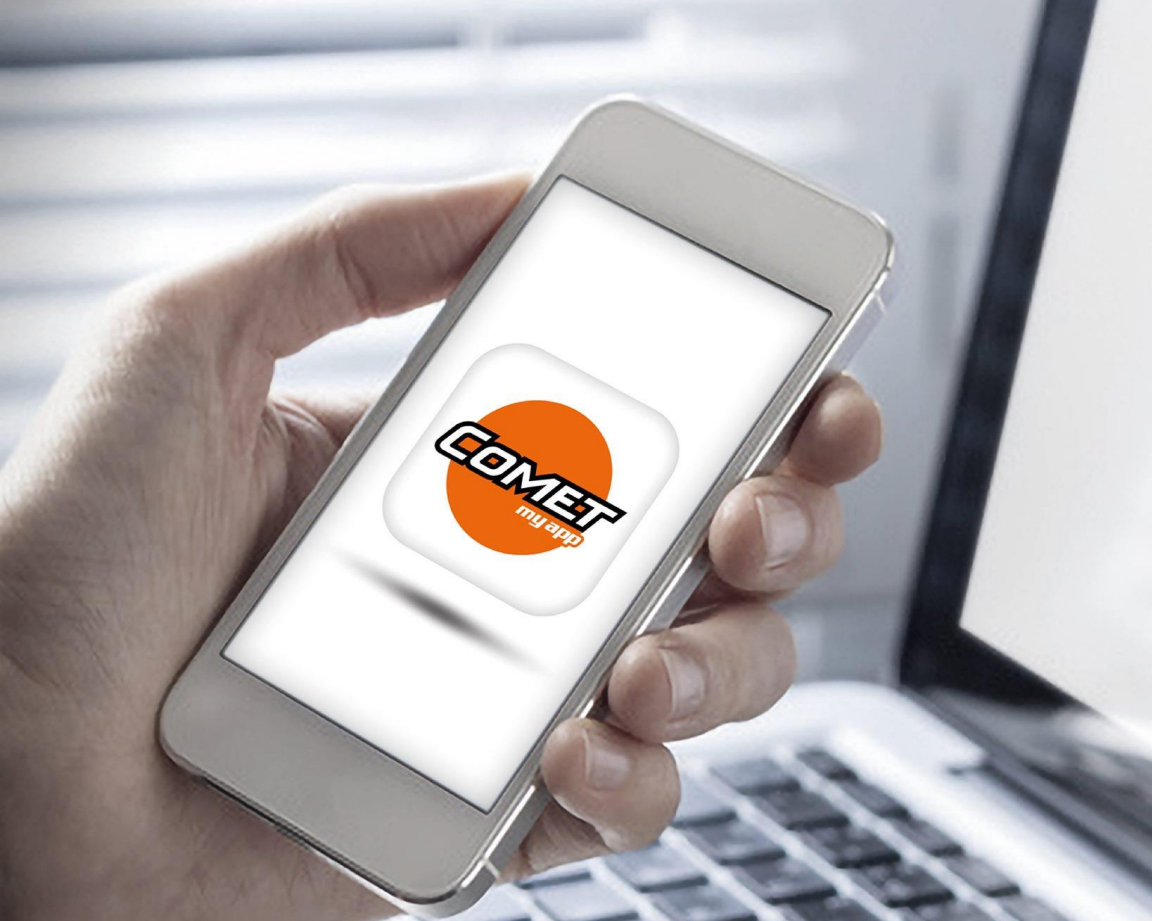

TECHNICAL DOCUMENTATION'S SEARCH

If you cannot find the documentation of your interest after having carried out all the search operations explained in this tutorial, please request it to:

info@comet-spa.com

vendite@comet-spa.com

One of our operators will send you the requested documentation as soon as possible if it's available.

All the Comet documentation is available on our
COMET myapp

Available on IOS and ANDROID
